## ACTION AGAINST HUNGER

WRITTEN BY KIARA

The race against hunger.  
On Thursday the 2nd of June, teachers, students and staff of school will have the opportunity to participate in a race against hunger !

They will have 40 minutes to compete as many laps as possible over a 550 metre race. They will be sponsored and each earnings will be donated to the association *Action contre la faim* to fight againsts hunger in *Côte d'Ivoire*.  
On your trainers !

## PROM

WRITTEN BY NAOMIE

After 2 years without being able to celebrate the end of high school. The Aristide Briand high school is organising a prom on wednesday June the 29th. A lot of seniors will be having fun and share last good memories with their friends before parting ways.

# TESTIMONIES

WRITTEN BY FATOU AND VIRGINIE

## **Anys**

"Rude years because of the lack of organisation and it was too messy. But I made really good friends and I had good classes and good teachers like miss Sanino and mister Marchand. However it went really fast and I will miss high school."

## **Thomas**

"The first year was decent, the second one was unbearable because the group thing was horrendous for it lasted the whole year. However this last year was easily the best because we had full time class and the classmates were great."

## **Mehdy**

"These three last years past really fast due to the lockdown since the first class of high school but despite of that, the end of high school was cool. I'll not miss high school at all because some classes were annoying and moreover, next year, I'll do something I like."

## **Abderraouf**

"I really liked my first year of high school because there was freedom, and I had no exam. But, the second year was kind of bad because I didn't like my class. However, I really liked my teacher like Mr. Atenoll. I'll miss high school because next year, I'll have to work."

## **Fatou**

" For me, high school was so so because there was the lockdown and the coronavirus. We couldn't enjoy it completely. My first year was the worst one because the change between middle school and high school shocked me. But the good point was that I met one good friend. What I'll remind from high school is going to be the freedom, the joy and the good moments I shared with my friends in class."

# Special thanks

Written by Mehdy and Volkan

These special thanks go to the teachers who helped progressing in English this year.

Special thanks to Ms. Coulangeon for teaching us at the beginning of the year, but also remotely throughout the year.

Special thanks to Ms. Sannino for substituting Ms. Coulangeon for the rest of the year.

Special thanks to Mr. Renoliet for helping us this year in DNL.

Special thanks to the class that was able to reconcile the atmosphere and the work. We were able to manage the two.
