It was a big theater room, with comfortable chairs.

The director introduced this movie and the film began. The title of the movie is « Emily the criminal », it's a thriller crime movie, It lasted 95 minutes.

The film talks about how Emily must pay her university loans so she breaks the law to do it. In our opinion, It was a good movie.

The director came back on stage to answer the audience's questions.

After, we went to the « planche de Deauville » to have lunch next to the beach with a view on the sea. It was sunny but windy.

We went to the casino to watch another film : « Palm trees and power lines ». It's a drama movie about a girl under the influence of an older man. It was a good movie when we understand the message.

We crossed the city center, and saw many luxury shops and cars.
